

TECHNICAL PLATFORM ON REFERRAL PATHWAYS AND REINTEGRATION COOPERATION

ABOUT

The Return and Reintegration Facility (RRF), funded by the European Commission (DG HOME) and implemented by ICMPD, is establishing the Technical Platform on Referral Pathways and Reintegration Cooperation ('The Platform').

The Platform consolidates two EU-funded initiatives whose mandates expired or evolved in 2026 - the MPF-funded Community of Practice on Return and Reintegration and the RRF-funded Technical Working Group on Reintegration & Development - into a single operational space.

The Platform aims to bring together EU Member States and Countries of Origin (CoO), the European Commission, and reintegration and development actors to foster dialogue and strengthen cooperation around reintegration and referrals. It will serve as an EU-funded forum that brings together all relevant stakeholders to discuss the practical challenges of implementing reintegration assistance and solutions to strengthen referral pathways.
